Andreas "Koo" Ekvall-Hofvander
Multimediadesigner | Frontend developer
Passionate and curious.

Avid coffeedrinker and Copenhagen-based Swede,

When I'm not tinkering with code I spend my time gaming,
enjoying food and traveling (when time permits).

Education

Multimediadesigner *Front-end development elective*
*Københavns Erhvervsakademi (KEA)* Jan 2023 - Mar 2025

This is where I learnt all the basic skills necessary for a future in tech,
and also what started my journey

In my opinion a good all-round education. During my time at KEA I have
been introduced to many concepts and techniques to springboard me
into the world of tech.

Keywords: HTML, CSS, JavaScript, Git, Astro, React,
postgreSQL, Figma, Adobe Creative Suite,
Design, project management, marketing,

Experience

Internship Frontend development
Franklin Technologies Aps.   Aug 2024 - Nov 2024

Starting my last semester I managed to snag an internship at the
up-and-coming fintech company Franklin where I filled a role as a
frontend intern.

My day-to-day workflow would consist of checking or handling
issues through Linear while keeping a dialogue with the rest of the
team on Slack.

Keywords: React, NextJS, TypeScript, Git, Linear, Slack,
Storybook, Vitest, Playwright
